

PRABIR PADHY

Engineering Lead | | Java Full Stack Developer | | Certified AWS Architect | | IMMEDIATE JOINER

+91-9483207656 • prabir.sain@gmail.com • http://prabirpadhy.in/ • Bangalore

Summary

I am an Innovative and accomplished Engineering leader with **12.9 years of diverse experience in software Development lifecycle** as an **Architect and Java Full Stack Developer**. Specialized in crafting cutting-edge solutions in **Distributed Systems** and **Event-Driven Architecture**, with a focus on leveraging **AWS** for **scalable and secure applications**. Proficient in building efficient **Microservices architectures using Java and Node.js**, complemented by a **deep understanding of Data Structures & Algorithms**. A proven leader with a track record of providing **technical guidance, conducting architecture reviews, code reviews** and implementing **solutions that enhance project efficiency and quality**. Skilled in integrating new technologies, optimizing workflows, and reducing manual processes. **Recognized for reducing IT expenses, improving cybersecurity, and implementing Agile methodologies resulting in 30% reduction in project delivery time.**

Skills

Programming Languages & Fundamentals: JAVA • JAVASCRIPT • SQL • DATA STRUCTURES & ALGORITHMS

Backend Development: SPRING BOOT • NODEJS • RESTFUL APIS

Architecture Design Patterns:
MICROSERVICES • DOMAIN DRIVEN DESIGN(DDD) • DISTRIBUTED SYSTEMS • EVENT DRIVEN • MULTI THREADING • TEST DRIVEN DEVELOPMENT

Cloud & DevOps:
AWS (S3, CloudWatch, Cognito) • AZURE • KUBERNETES • DOCKER • JENKINS • ARGO CD • GITHUB ACTIONS • CONCOURSE CI/CD

Database & Data Management: DATA MODELING • POSTGRESSQL • MONGODB • DYNAMODB • MS SQL • MYSQL

Monitoring & Logging: DATADOG • SPLUNK • NEW RELIC • GRAFANA • ELASTIC SEARCH • LOGSTASH • KIBANA

Workflow Orchestration & Messaging: APACHE KAFKA • APACHE AIRFLOW • SNS • SQS

Cybersecurity & Compliance: SNYK • VERACODE • SONARQUBE • PEN TEST

Agile & Software Development Practices: SCRUM • AGILE DEVELOPMENT

Quality Analysis: CUCUMBER • JUNIT

Experience

Tesco	Bangalore
SDE3	08/2024 - Present
Smart Delivery System	
- Conducted architecture reviews and assessments to identify technical risks and opportunities. - Provided technical leadership and guidance to development teams. - Provided Operational Support ensuring the systems are resilient. - Implemented cost-effective measures, reducing IT expenses by 15% while maintaining service levels. - Developed and implemented a comprehensive cybersecurity strategy, reducing the risk of data breaches.	

Experience

Cardinal Health / Outcomes India

Bangalore

Software Engineering Lead

10/2022 - 07/2024

Outcomes One MTM

- Designed scalable, flexible, and maintainable software architectures for key components in Outcomes One MTM Portal.
- Conducted architecture reviews and assessments to identify technical risks and opportunities.
- Provided technical leadership and guidance to development teams.
- Implemented application Security using OAuth2 & worked on enhancements in CI/CD for ensuring high availability.
- Designed and implemented Microservices architectural solutions for high fault tolerance.
- Implemented cost-effective measures, reducing IT expenses by 15% while maintaining service levels.
- Developed and implemented a comprehensive cybersecurity strategy, reducing the risk of data breaches.
- Implemented Agile methodologies, leading to a 30% reduction in project delivery time.
- Conducted training sessions for staff on new technologies, improving overall team proficiency, mentoring, code reviews, etc.

Cargill Corporation

Bangalore

Software Lead

07/2020 - 10/2022

Cargill Digital Labs

- Developed cloud-based generic platform components for Cargill Digital Labs.
- Utilized AWS S3, CloudWatch, and Kafka in developing distributed solutions.
- Developed a custom version of the Material UI library using React and JSX.
- Implemented IDP chaining in microservices using AWS Cognito.
- Worked on containerization of the application using Docker & Kubernetes.
- Integrated new technologies into existing systems, improving workflow and reducing manual processes by 30%.
- Implemented performance improvements in S3 services in our application resulting in reduction of Production downtime by 25%.

GE Aerospace

Bangalore

Senior Software Engineer

04/2016 - 07/2020

Flight Phase Analyzer

- Contributed to the development of a Cloud-based Solution embraced by 130+ Airline Customers.
- Implemented functional modules on the Front-End UI using Angular and Server-side Development using Node.js and Spring Boot.
- Deployed applications on Predix Cloud and managed Security [OAuth2] for Micro apps and Micro Services, utilizing SAST and DAST tools.
- Executed a Blue-Green Deployment strategy, ensuring zero downtime for the enterprise application.

Infosys

Bangalore

Senior System Engineer

01/2015 - 04/2016

Apple INC

- Played a pivotal role in the Design, Development, and Testing of various enhancements for the Apple Online Store.
- Innovatively designed and developed a Payment Simulator Application tailored for the Apple Online Store, significantly streamlining the development process.

IBM India Pvt Ltd

Bangalore

Software Developer

07/2012 - 12/2014

India Software Labs

- Implemented Restful web services to expose APIs, enhancing the functionality and accessibility of the application.
- Contributed to various modules of the project, focusing on server-side development using Java to ensure robust and efficient backend functionality.
- Collaborated on different modules of the project's Front-End UI, utilizing Angular JS 1.x to create a seamless and user-friendly interface.

Education

Biju Patnaik University Of Technology

Bhubaneswar, Odisha

BTECH in Electrical & Electronics Engineering

07/2007 - 08/2011
